Summary

Motivated and passionate B.Tech student specializing in Artificial Intelligence and Data Science, with strong leadership and team coordination skills. Experienced in coding and developing user-centric web applications, with a keen interest in UI/UX design. Adept at blending technical expertise with design principles to create intuitive, engaging digital experiences. Eager to contribute to innovative projects and grow as a tech professional.

Experience

bezgoFresh

December 2024 - July 2025

Social media manager

Palakkad

- Managed and built the brand's online presence across multiple social media platforms, enhancing engagement and visibility.
- Planned and executed social media campaigns from concept to launch, aligning with marketing goals.
- Tracked and analyzed performance metrics to optimize strategies and content.
- Actively engaged with followers to foster relationships and maintain a positive brand image.

Camino Infotech Pvt Ltd

August 2024

Internship Trainee

Ernakulam

- Completed a one-month Python Developer internship, gaining hands-on experience in Python development.
- Developed and tested Python scripts to automate tasks and meet project requirements.
- Wrote efficient, clean, and maintainable code to improve functionality.
- Collaborated with the development team to enhance application features, troubleshoot issues, and work with version control tools.
