City, State

SUMMARY

As a Cloud Engineer with 2 years of experience, I have honed my skills in designing and implementing cloud infrastructures across AWS and Azure. I am passionate about automation and efficiency, having successfully reduced deployment times and improved system performance. My commitment to best practices and collaboration with teams ensures that solutions are scalable, secure, and reliable.

EXPERIENCE

Cloud Engineer

Cloud Solutions Inc. 06/2021 - Present City, State
A leading provider of cloud services specializing in infrastructure management and automation.

- Designed and deployed scalable cloud solutions on AWS, leading to a 30% increase in application performance.
- Automated infrastructure deployment using Terraform, reducing deployment time by 40%.

Junior Cloud Engineer

Tech Innovations LLC 07/2019 - 05/2021 City, State
An innovative tech company focused on developing cloud-based applications.

- Implemented monitoring solutions using CloudWatch and Azure Monitor for proactive issue resolution.
- Collaborated with DevOps teams to ensure efficient CI/CD practices.

EDUCATION

Bachelor of Science in Computer Science

State University 09/2015 - 06/2019 City, State

LANGUAGES

English Native ●●●●●

STRENGTHS

- Cloud Architecture Expertise**
Strong understanding of cloud architecture and best practices for deployment and management.
- Resource Optimization & Troubleshooting**
Ability to optimize resources and troubleshoot complex cloud-related issues.
- Infrastructure Automation**
Proficient in automating infrastructure, significantly improving operational efficiency.

KEY ACHIEVEMENTS

- Cost Savings Migration Project**
Successfully led a project that migrated a major application to AWS, resulting in significant cost savings.
- Deployment Automation Achievement**
Automated a previously manual deployment process which improved deployment frequency and reduced errors.

SKILLS

Hard Skills

AWS Azure GCP Terraform
CloudFormation Linux Administration
Windows Administration

Soft Skills

Problem Solving Collaboration
Communication
