EM

SUMMARY

As a dedicated Cloud Infrastructure Engineer, I have over 3 years of experience building robust cloud solutions. My expertise in Terraform, automation, and systems architecture allows me to enhance applications' performance while optimizing costs. I am passionate about leveraging technology to create efficient, secure, and scalable infrastructure that meets clients' needs.

EXPERIENCE

Cloud Infrastructure Engineer

Tech Solutions Inc.

📅 01/2021 - Present 📍 Boston, MA

A technology company specializing in cloud solutions and infrastructure management.

- Designed and maintained scalable cloud infrastructure for enterprise applications
- Implemented automated backup and disaster recovery solutions
- Optimized resource allocation, reducing costs by 25%

Cloud Engineer

Cloud Innovators LLC

📅 06/2019 - 12/2020 📍 San Francisco, CA

A firm dedicated to offering advanced cloud services and solutions to businesses.

- Managed compute, storage, and networking resources in public cloud environments
- Performed system upgrades and ensured compliance with security standards
- Utilized Terraform for infrastructure provisioning and scaling operations

Infrastructure Engineer

IT Solutions Group

📅 08/2018 - 05/2019 📍 Los Angeles, CA

An IT services company focusing on integrating cloud solutions in business operations.

- Contributed to design and documentation of distributed systems architecture
- Collaborated with cross-functional teams to enhance cloud capabilities
- Implemented CI/CD pipelines to streamline application deployment

EDUCATION

Bachelor of Science in Computer Science

University of Technology

📅 09/2016 - 05/2020 📍 New York, NY

STRENGTHS

Cloud Infrastructure Expertise

Expert in designing scalable and cost-effective cloud infrastructures.

Automation Proficiency

Proficient in automation tools like Terraform and Ansible for infrastructure management.

Cloud Security Knowledge

Strong knowledge in security practices to ensure safe cloud operations.

KEY ACHIEVEMENTS

Legacy System Migration Project

Successfully migrated a legacy system to a cloud-based solution, enhancing performance and scalability.

Cost Optimization Initiative

Led a team in optimizing cloud resource management, resulting in a significant reduction in operational costs.
