

ADITYA A

Cloud Infrastructure Engineer

+1234567890 • aditya@example.com • https://linkedin.com/in/aditya-engineer • City, Country

Summary

I am a passionate Cloud Infrastructure Engineer with over 3 years of experience in building and maintaining cloud environments. My focus is on ensuring high availability, disaster recovery, and performance optimization while leveraging tools like Terraform and Ansible. I excel at implementing scalable solutions that manage compute, storage, and networking resources effectively.

Experience

Cloud Innovations Corp.

Cloud Infrastructure Engineer

City, Country

06/2019 - Present

A leading company providing cloud solutions and services.

- Built and maintained scalable cloud infrastructure using AWS and Azure.
- Managed compute, storage, and networking resources effectively utilizing Terraform.
- Implemented backup, disaster recovery, and high availability strategies to ensure system uptime.

Tech Solutions Ltd.

Junior Cloud Engineer

City, Country

08/2018 - 05/2019

A company specializing in IT solutions and cloud services.

- Optimized existing cloud resources for enhanced cost efficiency.
- Performed system upgrades and patches to maintain performance and security.
- Collaborated with cross-functional teams to design cloud architectures.

Education

University of Technology

Bachelor of Technology in Computer Science

City, Country

09/2015 - 06/2019

Strengths

Cloud Systems Optimization

Strong ability to build and optimize cloud systems for high availability.

Infrastructure Automation

Expert in automating infrastructure management with modern tools.

Cross-Platform Cloud Management

Proficient in managing cross-platform cloud services and applications.

Key Achievements

Cloud Migration Project

Successfully migrated critical applications to a cloud environment, reducing operational costs by 30%.

Infrastructure Automation Initiative

Implemented an infrastructure as code strategy, decreasing deployment time from hours to minutes.
