SUMMARY

As a Cloud Infrastructure Engineer with over 5 years of experience, I excel in building and maintaining scalable cloud infrastructures that support vital applications. My expertise extends to managing compute and storage resources, implementing disaster recovery strategies, and leveraging automation tools like Terraform and Ansible to enhance performance and reduce costs.

EXPERIENCE

Cloud Infrastructure Engineer

Tech Innovations Ltd. | 01/2020 - Present | Bangalore, India

A leading tech company specializing in innovative cloud solutions.

- Built and maintained scalable cloud infrastructure for application deployment.
- Managed a diverse array of compute, storage, and networking resources in a hybrid environment.
- Led the implementation of disaster recovery and high availability solutions.

Infrastructure Engineer

Cloud Solutions Co. | 07/2018 - 12/2019 | Hyderabad, India

A firm dedicated to providing cloud-based solutions and services.

- Performed system upgrades and patching to ensure system reliability.
- Optimized infrastructure resulting in a 20% reduction in operational costs.
- Collaborated with cross-functional teams to support application deployment.

System Administrator

IT Services Group | 08/2017 - 06/2018 | Mumbai, India

A company specialized in IT services and cloud infrastructure.

- Implemented Terraform and Ansible for infrastructure automation.
- Supported developers by ensuring optimal configuration for cloud resources.
- Developed monitoring solutions for infrastructure performance diagnostics.

EDUCATION

Bachelor of Technology in Computer Science

National Institute of Technology

09/2015 - 06/2019 | Karnataka, India

LANGUAGES

English Native ●●●●● Hindi Proficient ●●●●●

STRENGTHS

Cloud Management Expertise

Proficient in managing cloud infrastructure and ensuring optimal performance.

Analytical Thinker

Strong analytical skills to troubleshoot complex infrastructure issues.

Process Automation

Ability to automate processes using various tools, enhancing operational efficiency.

KEY ACHIEVEMENTS

Cloud Migration Success

Successfully migrated legacy systems to a modern cloud infrastructure, improving efficiency.

Disaster Recovery Strategy

Designed and implemented a backup and disaster recovery strategy that reduced downtime significantly.
