Summary

I am a seasoned Cloud Platform Engineer with 6 years of experience in building and maintaining cloud infrastructures. My expertise includes developing CI/CD pipelines, managing Kubernetes environments, and ensuring platform security. I pride myself on improving developer experience and efficiency, and I'm passionate about leveraging cloud technologies for innovative solutions.

Experience

Tech Solutions Ltd.

Senior Cloud Platform Engineer

Bangalore, India

01/2020 - Present

A leading company providing cloud solutions and services.

- Successfully developed and maintained an internal cloud platform used by multiple teams.
- Designed and implemented CI/CD pipelines resulting in a 30% decrease in deployment time.
- Managed Kubernetes clusters enhancing application reliability and scalability.

Innovative Tech Co.

Cloud Engineer

Chennai, India

06/2018 - 12/2019

A cloud technology startup focused on innovation in cloud services.

- Built a self-service toolkit that improved developer experience and efficiency.
- Conducted regular training sessions on Kubernetes and cloud-native practices.
- Improved platform security, implementing best practices and regular audits.

Global Tech Systems

Junior Cloud Platform Engineer

Mumbai, India

07/2017 - 05/2018

A multinational technology corporation known for cloud computing services.

- Developed internal tooling for container orchestration and management.
- Contributed to open-source projects related to cloud-native architectures.
- Participated in optimizing infrastructure costs and resource utilization.

Education

National Institute of Technology

Bachelor of Technology

India

08/2015 - 06/2019

Strengths

Adaptability

Ability to quickly adapt to new technologies and frameworks.

Analytical Thinking

Strong analytical skills to troubleshoot and resolve complex technical issues.

Teamwork

Proven track record of working effectively in a team-oriented environment.

Key Achievements

Efficiency Improvement

Reduced deployment time significantly for teams by implementing streamlined CI/CD practices.

Developer Empowerment

Spearheaded the development of a self-service cloud portal that enhanced developer autonomy.
