Summary

I am a Cloud Systems Engineer with over three years of experience in managing and optimizing cloud infrastructure. I have a strong background in systems administration, security hardening, and automation using Python and Shell scripting. My passion for technology drives me to embrace challenges and continuously improve my skill set, focusing on delivering high-performance cloud solutions that exceed client expectations.

Experience

Tech Solutions Inc.

Bangalore, India

Cloud Systems Engineer

01/2021 - Present

A leading provider of IT solutions focusing on cloud technology implementation.

- Configured and maintained over 50 cloud-based servers on AWS and Azure.
- Implemented security protocols resulting in a 30% decrease in vulnerabilities.
- Automated server provisioning which reduced deployment time by 40%.

Innovatech Systems

Hyderabad, India

Junior Systems Engineer

01/2020 - 12/2020

Develops innovative cloud solutions for businesses.

- Managed system health and performance monitoring tools.
- Troubleshoot critical system-level issues reducing downtime to less than 1%.
- Collaborated with development teams to enhance deployment strategies.

CloudNet Solutions

Chennai, India

Intern - Systems Engineering

06/2019 - 12/2019

Provides cloud solutions tailored to client needs with a focus on security.

- Assisted in system hardening initiatives and OS-level security management.
- Gained hands-on experience with Linux and Windows-based systems.
- Contributed to optimizing cloud storage resources.

Education

National Institute of Technology

Surat, India

Bachelor of Technology in Computer Science

09/2018 - 06/2021

Strengths

Analytical Thinking

Strong analytical skills to diagnose and resolve system issues effectively.

Adaptability

Ability to adapt and learn new technologies quickly in a fast-paced environment.

Time Management

Proven ability to work under pressure and meet tight deadlines.

Key Achievements

Enhanced System Security

Successfully reduced system vulnerabilities through proactive security measures in cloud environments.

Automated Deployment

Led a project that implemented automated provisioning that improved operational efficiency across departments.
