SUMMARY

I am a motivated and dedicated computer science graduate with a strong foundation in cloud technologies and systems administration. With hands-on experience in scripting and automation, I am eager to kickstart my career as a Cloud Systems Engineer. My academic projects have equipped me with practical skills in configuring and managing cloud environments, making me a valuable addition to any engineering team.

EDUCATION

Bachelor of Technology in Computer Science

XYZ University

09/2021 - 06/2023 City, Country

LANGUAGES

English Proficient Hindi Native

TRAINING / COURSES

Introduction to Cloud Computing

Course covering cloud computing principles and practices, hands-on lab sessions included.

STRENGTHS

Learning Agility

Quick learner who adapts well to new environments and technologies.

Troubleshooting

Strong troubleshooting skills in both software and hardware contexts.

Multi-tasking

Ability to work on multiple projects simultaneously while maintaining attention to detail.

KEY ACHIEVEMENTS

Cloud Infrastructure Project

Successfully completed a project on cloud infrastructure setup as part of my college curriculum.

Automation Script Development

Developed a Python script to automate server configuration which was well-received during my training.

SKILLS

Hard Skills

Linux administration

Windows administration

Shell scripting

Python programming

Cloud services management

Soft Skills

Problem-solving

Adaptability

Team collaboration

Communication
