AK

SUMMARY

I am a recent graduate with a Bachelor of Technology in Computer Science, eager to start my career as a Cloud Platform Engineer. My academic projects in cloud computing have equipped me with essential skills in Kubernetes, Docker, and cloud-native architectures. I am passionate about improving developer experience and building efficient platforms in fast-paced environments.

EDUCATION

Bachelor of Technology in Computer Science

XYZ University

📅 09/2021 - 06/2023 📍 City, State

LANGUAGES

English Native ●●●●● Hindi Proficient ●●●●●

TRAINING / COURSES

Introduction to Cloud-Native Development

An online course covering the fundamentals of cloud-native architecture and its components.

STRENGTHS

Cloud Deployment Knowledge

Strong understanding of cloud deployment concepts.

Quick Learner

Ability to quickly learn new technologies and tools.

Practical Problem Solver

Good problem-solving abilities with a focus on practical applications.

KEY ACHIEVEMENTS

Mini Cloud Platform Project

Successfully developed a mini cloud platform as part of my final year project, enabling automated deployment of applications.

Kubernetes Orchestration Project

Led a team project on Kubernetes orchestration that improved deployment efficiency during my university studies.

SKILLS

Hard Skills

Kubernetes

Docker

Cloud-native architectures

CI/CD

Automation

Monitoring tools

Soft Skills

Teamwork
