SUMMARY

I am a Cloud Systems Engineer with over 10 years of experience in systems engineering and administration. I specialize in configuring and maintaining cloud environments, managing OS-level security, and automating system provisioning. I am passionate about technology and constantly strive to enhance system performance and reliability through innovative solutions.

EXPERIENCE

Cloud Systems Engineer 03/2013 - Present
Cloud Innovators Inc. Hyderabad, India
Leading provider of cloud solutions focused on delivering tailored infrastructures.

- Configured and maintained multiple cloud-based servers for various applications.
- Managed OS-level security protocols, significantly reducing vulnerabilities.
- Automated provisioning processes using shell scripting, improving deployment times.

Systems Engineer 01/2010 - 02/2013
Tech Starter Solutions Chennai, India
Provided innovative IT solutions and support services.

- Monitored system health and performance using advanced logging tools.
- Troubleshooted complex system-level issues, achieving a 95% first-time resolution rate.
- Led efforts in system hardening, enhancing security compliance across platforms.

Junior Systems Engineer 06/2012 - 12/2009
Digital Cloud Systems Mumbai, India
Specialized in cloud-based infrastructure and services.

- Implemented and maintained cloud compute services, resulting in cost savings.
- Conducted training sessions on best practices for cloud administration.
- Collaborated with development teams to support continuous integration processes.

EDUCATION

Bachelor of Technology in Computer Science 01/2008 - 06/2012
University of Technology Bangalore, India

LANGUAGES

English Native Hindi Proficient

STRENGTHS

- Analytical Thinker**
Strong analytical skills in identifying system issues and proposing solutions.
- Resilient Under Pressure**
Ability to work effectively under pressure and meet tight deadlines.
- Technical Leader**
Excellent leadership skills in guiding technical teams.

KEY ACHIEVEMENTS

- Reduced System Downtime**
Successfully reduced system downtime by implementing automated monitoring.
- Legacy System Migration**
Led a project that migrated legacy systems to cloud infrastructure, enhancing scalability.
