

RESHMA M.

Cloud Engineer

(555) 555-4567 • reshma.m@example.com • <https://www.linkedin.com/in/reshma-m> • Tech City, Country

Summary

As a seasoned Cloud Engineer with over 10 years in the field, I specialize in designing and managing robust cloud infrastructures across various platforms including AWS, Azure, and GCP. My expertise lies in implementing best practices for scalability and security while optimizing performance. I thrive in collaborative environments and am committed to driving innovation through efficient cloud solutions.

Experience

Tech Solutions Inc.

Senior Cloud Engineer

Tech City, Country

01/2015 - Present

A leading company focused on innovative cloud solutions for businesses.

- Designed and deployed cloud infrastructures using AWS, Azure, and GCP.
- Implemented IaC using Terraform to automate resource management.
- Collaborated with DevOps teams to ensure seamless application deployment.

Cloud Innovators Ltd.

Cloud Engineer

Inno Valley, Country

06/2011 - 12/2014

A company specializing in cloud services and infrastructure management.

- Monitored and optimized system performance with CloudWatch and Azure Monitor.
- Enhanced security practices in the cloud infrastructure, reducing incident rates by 30%.
- Troubleshooted and resolved cloud-related outages within service level agreements.

Global IT Solutions

Junior Cloud Engineer

Metro City, Country

01/2010 - 05/2011
