SUMMARY

I am a seasoned Cloud Systems Engineer with over 10 years of experience in managing and optimizing cloud environments. I specialize in configuring cloud-based servers, managing OS-level security, and automating system processes. My background includes a strong focus on Linux and Windows systems administration, complemented by skills in Python and shell scripting, driving significant operational improvements.

EXPERIENCE

Senior Cloud Systems Engineer 01/2015 - Present
XYZ Tech Solutions City, Country

Leading provider of cloud solutions supporting various industries.

- Configured and maintained over 100 cloud-based servers ensuring high availability.
- Led a team to automate system provisioning processes, reducing deployment times by 30%.
- Implemented a robust security framework resulting in a successful audit with zero findings.

Cloud Systems Engineer 06/2012 - 12/2014
Cloud Dynamics Inc. City, Country

A startup specializing in scalable cloud computing solutions.

- Monitored system health using advanced logging tools, enhancing performance metrics.
- Developed and maintained shell scripts for automating tasks and improving operational efficiency.
- Conducted troubleshooting sessions that reduced system downtime by 20%.

Systems Engineer 07/2010 - 05/2012
Tech Innovators Ltd. City, Country

A company focused on innovative technology solutions and IT consulting.

- Managed OS-level security across multiple systems in both cloud and on-premises environments.
- Provided technical support and training to team members to enhance system-level knowledge.
- Ensured compliance with company policies through regular audits and system checks.

EDUCATION

Bachelor of Science in Computer Science 09/2008 - 06/2012
ABC University City, Country

LANGUAGES

English Native ●●●●● Spanish Advanced ●●●●●

STRENGTHS

- Analytical Thinker**
Strong analytical abilities to troubleshoot complex system issues.
- Automation Specialist**
Expert in creating automated solutions that improve operational efficiency.
- Effective Communicator**
Exceptional communication skills for coordinating with cross-functional teams.

KEY ACHIEVEMENTS

- Cloud Migration Project**
Successfully migrated legacy systems to cloud infrastructure, enhancing performance and scalability.
- Automation Implementation**
Streamlined the provisioning process, leading to a significant reduction in server setup times.
