Developed an automated incident response system that reduced response time by 40%.

SKILLS

Hard Skills

Cloud Infrastructure Management ·

Incident Management ·

Monitoring Tools (Datadog, CloudWatch, New Relic)

ITIL and Operational Best Practices ·

Scripting for Automation

SUMMARY

I am a Cloud Operations Engineer with over 10 years of experience in ensuring the stability, performance, and availability of cloud environments. My expertise includes incident management and utilizing monitoring tools like Datadog and CloudWatch. I have a proven track record in implementing ITIL best practices and automating processes to optimize operations. My goal is to enhance cloud performance and contribute to technological advancements in the industry.
