SUMMARY

I am a seasoned Cloud DevOps Engineer with over 10 years of experience in automating infrastructure and optimizing cloud operations. My expertise lies in designing robust CI/CD pipelines, implementing Infrastructure as Code, and ensuring high deployment reliability. I thrive in collaborative environments and am dedicated to improving operational efficiencies while delivering secure, reliable software solutions.

EXPERIENCE

Senior Cloud DevOps Engineer

Tech Solutions Inc.

📅 02/2017 - Present 📍 San Francisco, CA

Leading provider of technology solutions focusing on cloud-based services.

- Designed and maintained scalable CI/CD pipelines leading to 50% reduction in deployment time.
- Automated infrastructure management for multiple environments, enhancing reliability and efficiency.
- Implemented comprehensive monitoring and alerting, improving response times to incidents.

DevOps Engineer

Cloud Innovations Ltd.

📅 01/2014 - 01/2017 📍 New York, NY

A firm specializing in cloud solutions and infrastructure automation.

- Collaborated with cross-functional teams to streamline cloud operations.
- Managed cloud environments in AWS and Azure, ensuring high availability and security.
- Integrated Infrastructure as Code practices using Terraform, enhancing deployment consistency.

Junior DevOps Engineer

IT Services Corp.

📅 01/2012 - 12/2013 📍 Los Angeles, CA

Provider of IT services and cloud technology solutions.

- Developed and maintained container orchestration with Kubernetes.
- Executed disaster recovery strategies, achieving 99.9% uptime.
- Optimized existing infrastructure, resulting in significant cost savings.

EDUCATION

Bachelor of Technology in Computer Science

National Institute of Technology

📅 09/2009 - 05/2012 📍 India

LANGUAGES

English

Native

STRENGTHS

Cloud Automation Specialist

Expert in automating cloud infrastructure and deployment pipelines.

Multi-Cloud Management

Experienced in managing multi-cloud environments and ensuring operational excellence.

Communication and Collaboration

Strong communicator, able to bridge gaps between development teams and operations.

KEY ACHIEVEMENTS

Deployment Process Automation

Successfully led a team in automating the deployment process, reducing average release time from two weeks to under 48 hours.

Cloud Cost Optimization

Achieved a 30% cost reduction in cloud spend through optimization strategies and efficient resource management.

SKILLS

Hard Skills

AWS

Azure

GCP

CI/CD tools (Jenkins, GitHub Actions, GitLab CI)

Terraform

CloudFormation

ARM Templates

Docker

Kubernetes

Linux scripting (Bash, Python)
