SUMMARY

With over six years of experience in cloud platform engineering, I specialize in developing and managing cloud infrastructures. My focus is on improving developer efficiency through CI/CD pipelines and container orchestration using Kubernetes. I am dedicated to delivering reliable and scalable solutions that enhance application deployment and management.

EXPERIENCE

Cloud Platform Engineer 01/2020 - Present
Cloud Solutions Inc. Austin, TX

- A leading provider of cloud technology solutions.
- Developed and maintained cloud platforms enabling efficient application deployment.
 - Built CI/CD pipelines using Jenkins and GitHub Actions, significantly reducing deployment times.
 - Managed Kubernetes clusters and optimized container orchestration.

Platform Engineer 06/2016 - 12/2019
Innovative Tech Solutions San Francisco, CA

- A company focused on digital transformation and cloud solutions.
- Implemented cloud-native architectures and enhanced observability tools.
 - Ensured platform security and improved developer experience through streamlined workflows.

EDUCATION

Bachelor of Science in Computer Science 08/2012 - 05/2016
Tech University New York, NY

LANGUAGES

English Native ●●●●● Spanish Advanced ●●●●●

STRENGTHS

- Cloud Expertise
Strong background in cloud architecture and engineering practices.
- Container Management
Proficient in building and managing containerized applications.
- Workflow Improvement
Ability to enhance developer workflows through automation and optimization.

KEY ACHIEVEMENTS

- Pipeline Automation Project
Successfully led a project that automated the deployment pipeline, increasing deployment frequency by 40%.
- Cloud Platform Revamp
Revamped the internal cloud platform, reducing downtime incidents by 50%.
